INDEPENDENT LIVING SKILLS

Lots of the topics covered in this website are part of independent living skills and you may be surprised by how much
is involved in looking after yourself. You don't have to be completely on your own and if you are finding things difficult
you should always have someone to turn to for help. This does not [...]

USEFUL DOCUMENTS

There are a number of documents that you will need to have as you live more independently. BIRTH CERTIFICATE
You need your birth certificate as proof of identity and you will need it to get other documents such as a passport.
Social Services may have a copy of your birth certificate that they are [...]

HEALTH

It is your social worker or young personal advisor's job to make sure you are registered with a doctor (also called GP) and a dentist. It is important not to leave registering with a GP until you need medical help. Keep the contact details for your doctor and out of hours contact number safe. DENTIST [...]

HOUSING

This is perhaps one of the biggest things you have to sort out as you leave care and this is why there is lots of help and support available for you. The options available in your area may affect your choice of when you want to leave care. Unfortunately quite a large number of care [...]

EDUCATION

SCHOOL You should already have a designated person in school who is there to help and support you. This could be a teacher or another person in the school. They are responsible for writing your Personal Educational Plan (PEP) and making sure everything happens. Your educational plan should help you to do the best [...]

SOCIAL SERVICES AND PATHWAY PLAN

While you have been looked after you will have known some people whose job it is to help and support you. All young people in care have a social worker. It is a good idea to keep their details readily available just in case you need to contact them. You may also want to note the [...]

RIGHTS, ENTITLEMENTS AND ADVOCACY

A right is a something that you can expect to receive. You don't have to earn it or win it. The rights and entitlements listed below are things that the government has committed to provide for you as a care leaver. This might be because there is an Act of Parliament or because they have [...]

An article within the **Theory of Superconductivity Default Book Series World Scientific** The mechanism by which two negatively charged electrons are bound together is still controversial in modern superconducting systems such as the copper oxides or alkali metal fullerides, but well understood in conventional superconductors such as aluminium in terms of the mathematically complex BCS (Bardeen Cooper **Theory of Superconductivity - YouTube** BCS theory. The theory describes superconductivity as a microscopic effect caused by a condensation of Cooper pairs into a boson-like state. The theory is also used in nuclear physics to describe the pairing interaction between nucleons in an atomic nucleus. **Physicists discover flaws in superconductor theory - superconductivity on a microscopic level, the BCS theory, which provided the first recommended for more details: J. R. Schrieffer, Theory of Superconductivity, Images for Theory of Superconductivity** course is dealing with the theory of superconductivity. We want to understand superconductivity using methods of theoretical physics. Experiments will be **Theory of superconductivity. Phys Rev 1957 - Questions and** It was only in 1957 that three American researchers - John Bardeen, Leon Cooper and John Schrieffer - established the microscopic theory of superconductivity. **Theory of Superconductivity** Jul 24, 2013 - 37 min - Uploaded by nptelhrdCondensed Matter Physics by Prof. G.
