**SWANSEA LEAVING CARE PRACTICAL INFORMATION FOR INDIVIDUALS LEAVING CARE
BAYS LEAVING CARE SERVICE**

Opening Hours: Mon, Tues, Thurs 10.00am – 4pm Wed: 1pm – 4pm, and Fri 10.00am – 3.30pm Contact Details:
Telephone: 01792 455105 Freephone: 0800521448 BEATS will: work with 16 – 21 year olds to help access training,
employment or work experience. help young people access courses, or volunteering opportunities. give practical support
with [...]

BENEFITS BUS STOP

Money Worries – Help with Benefits Have your benefits been stopped or reduced because of a sanction? You are
eligible for Income Support if you are: Aged 16 & 17 and a parent of a child for whom you are responsible for; or A
single person fostering a child Aged 18+ [...]

[Facebook](#)[Twitter](#)[Google+](#)
INDEPENDENT LIVING SKILLS

Lots of the topics covered in this website are part of independent living skills and you may be surprised by how much
is involved in looking after yourself. You don't have to be completely on your own and if you are finding things difficult
you should always have someone to turn to for help. This does not [...]

[Facebook](#)[Twitter](#)[Google+](#)
USEFUL DOCUMENTS

There are a number of documents that you will need to have as you live more independently. **BIRTH CERTIFICATE**
You need your birth certificate as proof of identity and you will need it to get other documents such as a passport.
Social Services may have a copy of your birth certificate that they are [...]

FacebookTwitterGoogle+
HEALTH

It is your social worker or young personal advisor's job to make sure you are registered with a doctor (also called GP) and a dentist. It is important not to leave registering with a GP until you need medical help. Keep the contact details for your doctor and out of hours contact number safe. DENTIST [...]

FacebookTwitterGoogle+
HOUSING

This is perhaps one of the biggest things you have to sort out as you leave care and this is why there is lots of help and support available for you. The options available in your area may affect your choice of when you want to leave care. Unfortunately quite a large number of care [...]

FacebookTwitterGoogle+
EDUCATION

SCHOOL You should already have a designated person in school who is there to help and support you. This could be a teacher or another person in the school. They are responsible for writing your Personal Educational Plan (PEP) and making sure everything happens. Your educational plan should help you to do the best [...]

FacebookTwitterGoogle+
SOCIAL SERVICES AND PATHWAY PLAN

While you have been looked after you will have known some people whose job it is to help and support you. All young people in care have a social worker. It is a good idea to keep their details readily available just in case you need to contact them. You may also want to note the [...]

FacebookTwitterGoogle+
RIGHTS, ENTITLEMENTS AND ADVOCACY

A right is a something that you can expect to receive. You don't have to earn it or win it. The rights and entitlements listed below are things that the government has committed to provide for you as a care leaver. This might be because there is an Act of Parliament or because they have [...]

Steel Concrete Composite Construction - Springer Wiley: Composite Structures of Steel and Concrete: Beams, Slabs A steel beam which is made composite by using shear connectors, composite metal decking and concrete is much stronger and stiffer than the base beam alone **Composite Construction in Steel and Concrete VII Proceedings** To introduce steel-concrete composite members and construction to explain the building structure should embody all steel construction, be constructed **Images for Composite steel and concrete construction** Composite construction. 2. Building,. Iron and steel. 3. Concrete construction. I. Title. TA664.J63 2004. 624.1?821dc22. 2004000841. ISBN 1-4051-0035-4. **Composite History - Diversakore Experts in Structural Framing** Proceedings of the fifth international conference on Composite Construction in Steel and Concrete, held in Kruger National Park, South Africa, July 18-23, 2004. **FEMA P-751: Chapter 9: Composite Steel and Concrete** Special Activity Group 6. Composite steel-concrete construction. Convener: Pecce. Universita del Sannio. Italy. Secretary: Di Sarno. Universita del Sannio. Italy. **Composite steel and concrete construction: P. R Knowles** Jan 4, 2016 The success of a concrete slab on a steel frame is more likely to happen when there is coordination between the contractor, owner, and design **Composite Construction in Steel and Concrete VII ASCE** The design, construction, and quality of composite steel and concrete components that resist seismic forces shall comply with the requirements of the references **On the Evolution of Steel-Concrete Composite Construction** Brief History of Composite Steel Construction Composite beams are structural members composed of steel and concrete joined together to act as a single unit. **Composite Steel-Concrete Construction - Civil Engineering Database** Jan 1, 2017 Composite construction of concrete slabs on formed steel decks that are AISC 360-10, Specifications for Structural Steel Buildings published **STEEL CONCRETE COMPOSITE BEAMS - The Constructor** Proceedings of the Composite Construction in Steel and Concrete IV Conference, held in Banff, Alberta, Canada, May 28-June 2, 2000. Sponsored by the **Composite construction - Wikipedia** The reason why composite construction is often so good can be expressed in one simple way - concrete is good in compression and steel is good in tension. **Composite Construction in Steel and Concrete II** Oct 30, 2012 The choice between steel, concrete, and composite construction for a particular structure thus depends on many factors that are outside the **Design Recommendations for Steel Deck Floor Slabs - Scholars Mine** Advantages of Composite Construction. Connecting the concrete to the steel beams can have several advantages: It is typical to have a reduced structural steel **Composite steel-concrete construction - The International** In a composite steel deck, the dissimilar materials in question are steel and concrete. A composite steel deck combines **composite steel concrete construction - LADBS** Composite construction refers to two load-carrying structural members that An example of this is composite metal deck with concrete fill, steel filler beams, and The following six chapters are devoted to various aspects of the physical behaviour, analysis and detailed design of steel concrete composite construction. **Composite Construction and Cambering - American Institute of Steel** Composite Construction in Steel and Concrete II. Composite steel-concrete structures are widely used throughout the world. Applications range from buildings to **Introduction to Composite Construction Introduction to Composite** Proceedings of the Seventh International Conference on Composite Construction in Steel and Concrete, held in Palm Cove, North Queensland, Australia, July **Composite structures of steel and concrete - SlideShare** Composite steel and concrete construction [P. R Knowles] on . *FREE* shipping on qualifying offers. **Composite Steel and Concrete Structure Design Requirements** for the concrete during construction, but also as the principal tensile between the composite steel deck floor slab and the support beams by attaching studs or **Composite structures of steel and concrete - Wiley Online Library** In conventional composite construction, concrete slabs are simply rested over steel beams and supported by them. These two components act independently **none** Composite Steel-Concrete Construction. The report consists of a text and a supporting bibliography. For each subdivision of the text there is a corresponding, **Composite Construction in Steel and Concrete V Proceedings Composite Construction in Steel and Concrete IV Proceedings Composite Construction and Cambering (PDF) - Purdue Engineering** Concrete. AISC 341. American Institute of Steel Construction. 2005. Seismic Composite steel beams replace the joists at the spandrel locations to help control **Specifying and achieving a level composite steel floor Construction** materials and their design and construction to resist seismic forces shall conform to the Composite Shear Walls: Walls consisting of steel plates with concrete **Composite Steel and Concrete Structure**

Design Requirements HercuWall incorporates patented ShearStrip Technology that is a disruptive innovation facilitating concrete construction without conventional steel rebar **Composite Construction in Steel and Concrete VI Proceedings** Proceedings of the Sixth International Conference on Composite Construction in Steel and Concrete, held at the Devils Thumb Ranch in Tabernash, Colorado,
