

Code of Federal Regulations, Title 10, Energy, Pt. 200-499, Revised as if January 1, 2016

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government. This print ISBN is the official US Federal Government edition of the Code of Federal Regulations. 10 CFR Parts 200-499 covers the US Department of Energy. In this volume, you will find rules, processes, procedures, and regulations relating to administrative procedures and interpretations within this agency, plus electric power systems, procedures, sanctions, and reports; international voluntary agreements; energy and water conservation standards, testing, certifications, and more. Manufacturers of household appliances that require electric power systems may be interested in this volume. Electrician testers, inspectors, home builders, utilities personnel, and construction contractors may also be interested in this volume.
