

## ISO 7026:1997, Diesel engines - Screw-in injection nozzle holders, types 20, 21, 21.1 and 27 for pintle nozzle size S, type B

This International Standard specifies dimensional requirements for the mounting of injection nozzle holders in compression-ignition (diesel) engines. The location of the fuel inlet and leak-off connections are not defined since they vary according to the particular application. This International Standard applies to screw-in injection nozzle holders of types 20, 21, 21.1 and 27. These nozzle holders are used with the pintle nozzle size S, type B, specified in ISO 2697 1). This title may contain less than 24 pages of technical content.
