

Advanced Powder Technology VI: Selected, Peer Review Papers from the Sixth International Latin American Conference on Powder Technology - Ptech2007, ... 2007, Buzios-rio (Materials Science Forum)

This interesting volume focuses on powder production, sintering mechanisms, sintering furnaces and nanomaterials, automotive applications and future possibilities. The articles cover the topics of: powder production, ceramics processing, properties, powder compaction and sintering, injection moulding and mechanical alloying, nanomaterials, atmospheres, powder-metallurgy markets, characterization and applications. This book will certainly equip anyone working in the field with a firm grounding in the current state-of-the-art of powder technology.
