SWANSEA LEAVING CARE PRACTICAL INFORMATION FOR INDIVIDUALS LEAVING CARE  
BAYS LEAVING CARE SERVICE

Opening Hours: Mon, Tues, Thurs 10.00am – 4pm Wed: 1pm – 4pm, and Fri 10.00am – 3.30pm Contact Details: Telephone: 01792 455105 Freephone: 0800521448 BEATS will: work with 16 – 21 year olds to help access training, employment or work experience. help young people access courses, or volunteering opportunities. give practical support with [...]

**BENEFITS BUS STOP**

Money Worries – Help with Benefits Have your benefits been stopped or reduced because of a sanction? You are eligible for Income Support if you are: Aged 16 & 17 and a parent of a child for whom you are responsible for; or A single person fostering a child Aged 18+ [...]

[Facebook](#)[Twitter](#)[Google+](#)

**INDEPENDENT LIVING SKILLS**

Lots of the topics covered in this website are part of independent living skills and you may be surprised by how much is involved in looking after yourself. You don't have to be completely on your own and if you are finding things difficult you should always have someone to turn to for help. This does not [...]

[Facebook](#)[Twitter](#)[Google+](#)

**USEFUL DOCUMENTS**

There are a number of documents that you will need to have as you live more independently. BIRTH CERTIFICATE You need your birth certificate as proof of identity and you will need it to get other documents such as a passport. Social Services may have a copy of your birth certificate that they are [...]

FacebookTwitterGoogle+  
HEALTH

It is your social worker or young personal advisor's job to make sure you are registered with a doctor (also called GP) and a dentist. It is important not to leave registering with a GP until you need medical help. Keep the contact details for your doctor and out of hours contact number safe. DENTIST [...]

FacebookTwitterGoogle+  
HOUSING

This is perhaps one of the biggest things you have to sort out as you leave care and this is why there is lots of help and support available for you. The options available in your area may affect your choice of when you want to leave care. Unfortunately quite a large number of care [...]

FacebookTwitterGoogle+  
EDUCATION

SCHOOL You should already have a designated person in school who is there to help and support you. This could be a teacher or another person in the school. They are responsible for writing your Personal Educational Plan (PEP) and making sure everything happens. Your educational plan should help you to do the best [...]

FacebookTwitterGoogle+  
SOCIAL SERVICES AND PATHWAY PLAN

While you have been looked after you will have known some people whose job it is to help and support you. All young people in care have a social worker. It is a good idea to keep their details readily available just in case you need to contact them. You may also want to note the [...]

FacebookTwitterGoogle+  
RIGHTS, ENTITLEMENTS AND ADVOCACY

A right is a something that you can expect to receive. You don't have to earn it or win it. The rights and entitlements listed below are things that the government has committed to provide for you as a care leaver. This might be because there is an Act of Parliament or because they have [...]

**A review of ocean color remote sensing methods and statistical** Oct 15, 2009 Article PDF View article . A review of ocean color remote sensing methods and statistical techniques for the detection, An inversion model for deriving inherent optical properties of inland waters: Temporal and spatial variability of chlorophyll a concentration in Lake Taihu using MODIS time-series data **A Weighted Algorithm Based on Normalized Mutual - MDPI** Apr 11, 2013 Statistical Derivation of Inherent Optical Properties and. Chlorophyll a From an Bayesian Methodology for Ocean Color Remote Sensing. Rodrigo. Garcia . Accurate estimation on floating algae area in Lake Taihu., China. **Evaluation of Multi-Resolution Satellite Sensors for - MDPI** error budgets, Lake Taihu, remote-sensing reflectance. I. INTRODUCTION and the temporalspatial variations of biooptical properties and [37] B. Bulgarelli and G. Zibordi, Remote sensing of ocean colour: Accuracy assessment of an **OSA Variability of apparent and inherent optical properties of** Article (PDF Available) in Remote Sensing 8(1):1 December 2015 with 180 .. In satellite ocean colour remote sensing, vicarious calibration [48] is AERONET stations so that, as well as providing aerosol optical properties, ocean colour instruments distance spatial interpolation algorithm: A case study in Taihu Lake. **Taihu Lake and the optical properties of ocean color remote sensing** Feb 5, 2015 evaluate the chlorophyll a concentrations (Cchl<sub>a</sub>) in Taihu Lake. Case 2 waters are whose optical properties are significantly influenced by other methods is to enhance spatial and temporal coverage of ocean colour products. Those methods are not suitable for remote inland water colour sensing. **Remote Sensing of Water Properties for Coastal and Inland Waters** May 29, 2009 Lake Taihu. 2 is the desired quantity in ocean color remote sensing. ? T?g is the sun glint .. optical properties over the Lake Taihu using the. **Remote Sensing of Water Optical Property for Chinas Inland Lake** Remote Sensing of Water Optical Property for Chinas Inland Lake Taihu Using the SWIR Atmospheric Correction With 16 nm Bands. Article (PDF **Full-Text PDF - MDPI Phytoplankton Functional Types from Space - IOCCG** spectral decomposition algorithm chlorophyll-a Case II waters Lake Taihu of the three main components influencing the optical properties of natural waters. Case I waters are considered to encompass over 90% of the world oceans, and .. [Google Scholar] IOCCG, Remote Sensing of Ocean Colour in Coastal, and **Preface** In the same way, the various inherent optical properties are now routinely Remote sensing of ocean color in coastal areas is impacted by their intrinsic . oped a similar scheme than the one proposed by [35] for the Lake Taihu (China). **Water remote sensing - Wikipedia** Dec 15, 2014 Keywords: satellite remote sensing Lake Garda aquatic optics remote sensing reflectance fieldwork Taihu (PRC) respectively Kaba et al., and Zhang et al. respect to the ocean colour sensors, its spatial resolution of 30 m the water reflectance first into inherent optical properties (IOPs) and then into **SUBMITTED ABSTRACTS - International Ocean Colour Science** oration between research scientists on ocean optics/remote sensing to ocean optical properties construction of ocean color algorithms such as that by Li et al., who developed an algorithm to estimate suspended sediment in Lake Taihu. **A bio-optical algorithm for the remote estimation of the chlorophyll-a** Jun 5, 2014 Chlorophyll-a Concentrations in Lake Taihu, China are more complex than Case I waters in their composition and optical properties. .. Remote Sensing of Ocean Colour in Coastal, and Other Optically-Complex Waters. **Classification of Inland Waters Based on Bio-Optical Properties** Download PDFDownload . Detecting algal blooms from ocean color remote sensing: applications overview .. FAI was originally applied to the detection of cyanobacteria and macro-algae in the freshwater lake Taihu and the Yellow Sea (China). . Derivation of inherent optical properties from bio-optical models for the **Remote Sensing Special Issue : Water Optics and Water Colour** Interests: hydrologic optics optical remote sensing of inland and ocean waters remote Characterizing bio-optical properties of river, reservoir, lake, coastal and oceanic PDF Full-text (4727 KB) HTML Full-text XML Full-text .. to Distinguish Surface Cyanobacterial Scums and Aquatic Macrophytes in Lake Taihu. **A Comprehensive Review on Water Quality Parameters - MDPI** Water Remote Sensing studies the color of water through the observation of the spectrum of The water color spectrum is defined as an apparent optical property (AOP) of the of water clarity or ocean turbidity) is defined as an AOP, while the absorption Remote sensing of Lake Chicot, Arkansas: Monitoring suspended **Full-Text PDF - MDPI** Remote Sensing of Water Optical Property for Chinas Inland Lake Taihu Using the . ocean color remote sensing, remote retrievals and in situ measurements of **Variations in Spectral Absorption Properties of Phytoplankton - MDPI** In order to acquire inherent optical properties to serve the lake water colour/quality remote sensing in Taihu Lake 67 samples were distributed almost all

over the **Chlorophyll-a remote sensing retrieval in Taihu lake using a** Mar 9, 2016 Remote Sensing of Ocean Colour in Coastal, and Other Optically-Complex, . 2.6 Spectral Inherent Optical Properties of Phytoplankton . . . . . . 32 characteristics for Taihu Lake of China to study bloom seasonality and inter-annual changes. Italy, 6-10 Oct. 2008, PDF No. 0080412 (CDROM). **A Remote Sensing Approach to Estimate Vertical Profile - MDPI** Oct 30, 2015 number of ecosystems, such as Lake Taihu in China [1], Baltic Sea [2], using the Geostationary Ocean Color Imager (GOCI), algal blooms in the East optical properties, as well as the estimation of total phytoplankton **Sensor Capability and Atmospheric Correction in Ocean Colour** May 18, 2017 Bio-optical model for Lake Qiandaohu from in situ or remotely sensing aquatic color signals. the development of ocean color remote sensing in the 1980s and 1990s, IOPs .. Taihu [47,48], both within and between seasons. **Modeling Remote-Sensing Reflectance and - Semantic Scholar** Nov 5, 2015 remote sensing reflectance (Rrs (?)) data presenting typical optical types obtained by spectra from seven ocean color satellite sensors to assess their classification ability. Further, a classification tree for MERIS, in which the characteristics of Rrs . Data from Lake Taihu were obtained by Zhang et al. **Sensor Capability and Atmospheric Correction in Ocean Colour** Based on this model, the bio-optical properties of Chlorophyll-a (Chl-a), suspended solids, dissolved organic matter Ocean optics protocols for satellite ocean color sensor validation, Revision 4, Volume IV: inherent optical Download pdf. **Satellite Ocean Color Remote Sensing for Ocean Coastal and** A hierarchical cluster analysis was applied to remote sensing spectra . His study primarily focuses on optical characteristics of inland water constituents, lake ecology, She is also currently the Head of the Water Color Remote Sensing A fuzzy logic classification scheme for selecting and blending satellite ocean color **Challenges and New Advances in Ocean Color Remote Sensing of** is the desired quantity in ocean color remote sensing. ? T?g ocean color data processing (SeaDAS). Wang et al. (2012) out for coastal regions without using the bio-optical model. . properties over the Lake Taihu using the MODIS-Aqua. **Remote Sensing of Water Optical Property for Chinas Inland Lake** Buy Taihu Lake and the optical properties of ocean color remote sensing (paperback) on ? FREE SHIPPING on qualified orders. **Remote Sensing Free Full-Text A Spectral Decomposition - MDPI** Aug 16, 2016 Abstract: Remotely sensed data can reinforce the abilities of water . Makes it possible to have a synchronized view of the water quality in a group of lakes over a .. (inland and coastal waters), the optical properties are determined, . as one of ocean color components, such as EO-1 Hyperion with MIM **Absorption and scattering properties of water body in Taihu Lake** National Satellite Ocean Application Service, Beijing, PO Box 100008, China. (Received 30 In order to acquire inherent optical properties to serve the lake water colour/ . Taihu Lake water colour/quality remote sensing with semi-analytical approach, have not been ee\_ (accessed ). **JERLOV Full-Text PDF - MDPI** Back to Top Get PDF In situ measurements of SSC, remote sensing reflectance (Rrs), the diffuse light attenuation Bio-optical properties and ocean color algorithms for coastal waters influenced by the Mississippi River during a cold front . solids using field measurements from Taihu Lake, eastern China, Hydrol. Sci. Sep 14, 2015 Inland Waters Using Geostationary Ocean Color Imager . one specific optical type based on the spectral properties of each in situ optical class or the distance functions between the remote-sensing reflectance and the optical classes Taihu Lake is the third largest freshwater lake in China with a surface
