

An Outline of the Metallurgy of Iron Steel (Classic Reprint)

Excerpt from An Outline of the Metallurgy of Iron Steel This book was prepared to meet a need which the first Author had felt in his teaching, viz., a book which, in one volume of moderate size, would cover the whole field of the Metallurgy of Iron and Steel. That the book has, to some extent at least, met this need is evidenced by the fact that a second edition has been called for. This edition has been carefully revised, and some chapters have been re-written, so that they may bring the information up to the present condition of our knowledge. Considerable attention has been given to the latest work in connection with the metallography and heat treatment of the metal. The difficulty of selection from the vast mass of material now available is very great, and the Authors have done their best to give an account of all the more important developments in processes and plant, whilst retaining as much of the older processes as is necessary to an understanding of modern developments. A few processes which are no longer in use are described on account of their historical interest. In such a work as this it is impossible that there should be much that is new, and the Authors wish to express their indebtedness to the writers who have gone before, particularly to Dr. Percy and Sir I. Lowthain Bell, who have passed away; and to Prof. Howe, Mr. H. H. Campbell, Dr. Stead, and other great workers who are still with us. The Authors have to thank the Councils of the various Societies for permission to use matter in their Proceedings, the Editors of various Technical Journals, and many private friends who have given help in various ways. In most cases the source of information and illustrations are acknowledged in the text or notes; but if this has been inadvertently omitted the Authors tender their sincere apology for the oversight. In the preparation of such a book, making use of notes accumulated

through years of teaching, it is not always possible to ascertain the source from which information was obtained. To readers - especially students - the Authors would point out that no text-book can be more than a guide to reading. The books quoted should be referred to wherever possible, and no opportunity should be lost of referring to the original papers, as only by so doing can a real insight be obtained into the methods of the men who have made and are making the great industry, and whose influence for good in the world cannot be over-estimated; and one cannot make much progress himself till he has mastered the methods of those who have gone before. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

BENEFITS BUS STOP

Money Worries – Help with Benefits Have your benefits been stopped or reduced because of a sanction? You are eligible for Income Support if you are: Aged 16 & 17 and a parent of a child for whom you are responsible for; or A single person fostering a child Aged 18+ [...]

FacebookTwitterGoogle+

INDEPENDENT LIVING SKILLS

Lots of the topics covered in this website are part of independent living skills and you may be surprised by how much is involved in looking after yourself. You don't have to be completely on your own and if you are finding things difficult you should always have someone to turn to for help. This does not [...]

FacebookTwitterGoogle+

USEFUL DOCUMENTS

There are a number of documents that you will need to have as you live more independently. **BIRTH CERTIFICATE** You need your birth certificate as proof of identity and you will need it to get other documents such as a passport. Social Services may have a copy of your birth certificate that they are [...]

FacebookTwitterGoogle+

HEALTH

It is your social worker or young personal advisor's job to make sure you are registered with a doctor (also called GP) and a dentist. It is important not to leave registering with a GP until you need medical help. Keep the contact details for your doctor and out of hours contact number safe. **DENTIST** [...]

FacebookTwitterGoogle+

HOUSING

This is perhaps one of the biggest things you have to sort out as you leave care and this is why there is lots of help and support available for you. The options available in your area may affect your choice of when you want to leave care. Unfortunately quite a large number of care [...]

FacebookTwitterGoogle+

EDUCATION

SCHOOL You should already have a designated person in school who is there to help and support you. This could be a teacher or another person in the school. They are responsible for writing your Personal Educational Plan (PEP) and making sure everything happens. Your educational plan should help you to do the best [...]

FacebookTwitterGoogle+

SOCIAL SERVICES AND PATHWAY PLAN

While you have been looked after you will have known some people whose job it is to help and support you. All young people in care have a social worker. It is a good idea to keep their details readily available just in case you need to contact them. You may also want to note the [...]

FacebookTwitterGoogle+

RIGHTS, ENTITLEMENTS AND ADVOCACY

A right is a something that you can expect to receive. You don't have to earn it or win it. The rights and entitlements listed below are things that the government has committed to provide for you as a care leaver. This might be because there is an Act of Parliament or because they have [...]
